## **ACTIVITIES REPORT FOR MARCH QUARTER, 2021**

---

Dome Gold Mines Limited (“Dome” or “Company”) (ASX: DME) is pleased to report on activities at its industrial sand-magnetite, copper and gold projects in Fiji for the period ended 31 March 2021.

The impacts of the Covid-19 pandemic continued to present challenges to Dome and many other mineral exploration companies through the March quarter. These impacts include travel restrictions complicated by understandable periods of quarantine on both arrival and return from international travel. Given these complications the Company has suspended field exploration activities in Fiji while the pandemic is brought under control. We are encouraged that Australia and New Zealand have recently resumed normal travel arrangements.

During this difficult period, work is continuing in preparation for resumption of the Sigatoka Definitive Feasibility Study (DFS), now that the last stage of JORC 2012 resource drilling has been completed, the results of which were reported to the market on November 5, 2020 as well as in the December quarterly activities report.

On February 28, Dr Garry Lowder who had served with dedication on the Dome Board both as Chairman and non-executive director for nine years resigned from the Board. Mr John McCarthy who was appointed to the Board on January 13, 2021, assumed the role as Chairman on February 1, 2021. On behalf of the Board and Dome shareholders we extend our sincere thanks and gratitude to Dr Lowder for his exemplary service to the Company.

### **CORPORATE**

Expenditure incurred on exploration and related activities during the March 2021 quarter totalled \$38K.

Payments to related parties of the entity and their associates during the March 2021 quarter totalled \$20K, which comprised director’s fees.

As at 31 March 2021 Dome held \$1K in cash.

For further information about Dome and its Fijian projects, please refer to the Company’s website [www.domegoldmines.com.au](http://www.domegoldmines.com.au) or contact the Company at (02) 8203 5620.

This announcement as been approved by the Board of Dome Gold Mines Ltd.

**J.V. McCarthy**

## ABOUT DOME

Dome is an Australian mining company that listed on the ASX on the 22 October 2013. The Company is focussed on gold, copper and iron and industrial sands in Fiji, where it holds three highly prospective exploration tenements. Dome's objective is to become a major force in the mining industry of Fiji by the discovery and development of mineral resources within its Fijian tenements.

Sigatoka is a heavy mineral sand project containing abundant magnetite. Drilling to establish an initial resource estimate for the project has been completed, and preparations are now underway to undertake a definitive feasibility study. Commencement of production at Sigatoka by conventional sand mining and wet processing is anticipated within two years.

Our other projects are the Ono Island epithermal gold project, where an initial exploration diamond drilling was completed in early July 2018, and the Nadrau porphyry copper-gold project, where additional exploration programs are expected to take place at a later date.

Dome's Board and Management team has a high level of experience in Fiji, and Dome has been actively exploring in Fiji since 2008.
