

Spring Sciences Australia Signs Exclusive Deal with BOHECO For Full Product Line and R&D platform

High quality cannabis derived products in the healthcare, wellness and nutrition segments bound for Australia

Caboolture, 2 June 2021 – Spring Sciences Australia Pty. Ltd. (“SSA”) is pleased to announce it has entered into a binding Letter of Intent with Bombay Hemp Company Pvt. Ltd. (“BOHECO”) for the exclusive supply of the BOHECO range of cannabis derived products to the Australian B2B market.

SSA is a part of the Spring Sciences Group, a US based cannabis cultivator and manufacturer, and is currently constructing an advanced indoor grow facility in the Caboolture Region of Queensland.

The Bombay Hemp Company, incorporated in 2013, are an Indian Agro-based enterprise focused on the development of high-quality cannabis derived products in the healthcare, wellness, and nutrition categories through BOHECO Life and textile-based products by way of B Label, Hemp Fabric Lab and BOHECO Textiles. BOHECO is a pioneer of the burgeoning Indian cannabis sector with a world class product line.

The agreement between SSA and BOHECO will bring the full BOHECO product line to Australia under the SSA brand and explore a R&D platform for the development of new products for both the consumer and pharmaceutical markets. The primary focus is a holistic approach to general wellbeing derived from a healthy active lifestyle and balanced nutrition. An “Active for Life” philosophy.

The agreement further develops SSA’s progressive development of bringing established cannabis derived products to the Australian market and the development of a new range of infused products to cater to the rapidly expanding cannabinoid market.

SSA has committed to the utilisation of the latest technological innovation in the construction of its Caboolture growing and manufacturing facility and the partnership with BOHECO ensures immediate access for

Australians to quality cannabis derived products from an industry leading global group.

This exciting partnership is a significant step for Spring Sciences in its expansion into the Australian market and in developing the Spring Sciences Australia brand.
