DIRECTORS' REPORT

The directors of Hampton Hill Mining NL (Hampton Hill or the Company) submit their report for the half-year ended 31 December 2021.

DIRECTORS

The names of the Company's directors in office during the half-year and until the date of this report are as set out below. Directors were in office for this entire period unless otherwise stated.

Mr Joshua Pitt	Executive Chairman
Mr Wilson Forte	Non Executive Director
Mr Will Robinson	Non Executive Director

REVIEW AND RESULTS OF OPERATIONS

The Company recorded a loss after tax for the half year ended 31 December 2021 of \$3,434,943, a significant component of which arose from the impairment of exploration assets. This result compared with a profit of \$1,057,555 in the prior half-year attributable primarily to an increase in the fair value of the Company's listed investment.

The main activity of the Company throughout the half year was maintaining a dialogue with Saturn Metals Limited relating to the progress at the Apollo Hill gold project. Hampton Hill holds a substantial royalty over the central leases of that project and this forms the primary asset of the Company. The Company was also involved in discussions with Peel Mining Limited (PEX) about the ongoing exploration efforts at their Cobar base metal project in NSW. Hampton Hill, with its associates, is the largest shareholder of PEX.

At the 25% owned Millennium base metal project, managed by the Company's joint venture partner, Encounter Resources Limited, Hampton Hill received the results of a 400 metre diamond drill tail to a pre-existing reverse circulation hole. Several zones of plus 1% zinc were recorded that are potentially representative of a distal halo to a sediment hosted zinc deposit. However, the primary aim of the hole was to locate copper mineralisation below near surface anomalism and results were disappointing. As a consequence, the Company has reviewed the carrying value of the Company's capitalised exploration expenditure in respect of this project and impaired it by \$2,934,881.

No field work was carried out on any of the Hampton Hill wholly-owned tenements during the half year. As part of the process of obtaining the grant of the exploration licence covering the Tyson project the Company was engaged in legal discussions with the owners of the overlying pastoral lease. Negotiations were unsuccessful leading to the tenement application being withdrawn after the end of the half year. The Company has consequently fully impaired the capitalised expenditure of \$31,671 associated with this project at period end.

The Company has also fully impaired its interest in the Glenview project as a result of suspending further exploration (Refer Note 5).

Hampton Hill is not contemplating any new project development in the coming months as it focuses on maximising the benefits to be derived from the Company's royalties, in particular the Apollo Hill royalty, and its investment interest in PEX.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Company during the half-year.

EVENTS OCCURRING AFTER BALANCE DATE

Subsequent to the end of the financial half-year, following 2 years of suspension from trading of the Company's shares on the ASX, the Company was advised on 25 February 2022 of the ASX's intention to delist the Company (Refer Note 6).

Subsequent to the end of the financial half-year, the Company drew down \$60,000 on the loan facility with a director-related entity (Note 10).

To the best of the directors' knowledge and belief, there were no other material items, transactions or events subsequent to the end of the financial half-year which, although they do not relate to conditions existing at that date, have not been dealt with in these financial statements and which would cause reliance on the information shown in this report to be misleading.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration under Section 307C of the Corporations Act 2001 is included in this Interim Financial Report.

Signed in Perth on 8 March 2022 in accordance with a resolution of the directors.

Joshua Pitt
Executive Chairman

NOTE 4 – FINANCIAL ASSETS

	Half-year to 31 December 2021 \$	Year to 30 June 2021 \$
Balance at start of period	2,700,000	1,759,500
Acquisitions	-	226,406

Fair value movement in financial assets	(270,000)	943,723
	<u>2,430,000</u>	<u>2,700,000</u>

The financial assets comprise securities in Australian Securities Exchange (ASX) listed company Peel Mining Limited (PEX) and are stated at fair value.

Financial assets are classified as fair-value-through-profit-or-loss.

AASB 9 requires disclosure of fair value measurements according to the following fair value hierarchy:

- (a) Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (b) Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability;
- (c) Level 3 Inputs for the asset or liability that are not based on observable market data.

The securities are traded in an active market, being the ASX, and consequently they are measured as a Level 1 input on the fair value hierarchy. The quoted market price, used to determine the value of these securities, is the bid price at balance date. There has been no transfer between measurement levels during the year.

The Company has a number of other financial instruments which are not measured at fair value on a recurring basis in the statement of financial position. The directors consider that the carrying amounts of these financial instruments are a reasonable approximation of their fair value.

NOTE 5 – EXPLORATION ASSETS

	Half-year to 31 December 2021 \$	Year to 30 June 2021 \$
Costs brought forward in respect of areas of interest in exploration and evaluation phase	2,952,402	2,860,964

Impairment of exploration expenditure	(3,026,600)	(2,935)
	<u>-</u>	<u>2,952,402</u>

The Company has fully impaired the capitalised exploration expenditure on three projects. The Company's \$2,934,881 interest in the Millennium project has been impaired following disappointing results from recent exploration and the expectation is that the Company is unlikely to continue funding exploration activities at its 25% interest. \$60,048 has been impaired from the Company's interest in the Glenview project as a result of suspending further exploration, and \$31,671 has been impaired from the Tyson project following a decision to withdraw the Company's application for this exploration licence.

Since the last reporting date, there has been no change to the Company's accounting policy regarding exploration assets. Refer to the 2021 Annual Report for details of the Company's accounting policy.

ASX - suspension from quotation and proposed delisting

On 18 February 2020 the ASX suspended the Company's ordinary shares from quotation as, in the ASX's opinion, in terms of Listing Rule 12.1, the Company's operations were not adequate to warrant the continued quotation of its securities. Despite the Company making submissions to the ASX to have quotation reinstated, the ASX has maintained the suspension and on 25 February 2022 advised the Company that it was proceeding with delisting effective 28 February 2022. As of the date of signing this report, the Company has yet to receive confirmation of the proposed delisting.

The Company from time to time issues partly-paid ordinary shares and/or options to the executive director, key management personnel and other employees as part of their remuneration. 2,650,000 partly-paid shares are on issue as a result of such issues in prior years. No partly paid shares were issued during the half-year.

NOTE 9 – COMMITMENTS FOR EXPENDITURE

In order to maintain the mineral tenements in which the Company and other parties are involved, the Company is committed to fulfil the minimum annual expenditure conditions under which the tenements are granted. Since the last reporting date, there has been no material change in these commitments.

NOTE 10 – RELATED PARTY TRANSACTIONS AND BORROWINGS

Borrowings from director

Borrowings relate to the loan facility of \$1,000,000 provided by a company associated with a director, Mr Pitt. It is unsecured and otherwise on normal commercial terms and conditions, bearing interest at a rate of 3.5% per annum, paid quarterly in arrears. \$148,000 was drawn down on the facility during the half-year and total interest of \$6,122 was paid. At 31 December 2021 an amount of \$423,000 (30 June 2021: \$275,000) was drawn on the facility. The loan is repayable on 1 October 2023.

Subsequent to the end of the half-year, the Company drew down a further \$60,000 on this facility.

Other transactions

All other arrangements with related parties, as set out in the financial statements for the year ended 30 June 2021, continue to be in place.

NOTE 11 – EVENTS OCCURRING AFTER BALANCE DATE

Subsequent to the end of the financial half-year, following 2 years of suspension from trading of the Company's shares on the ASX, the Company was advised on 25 February 2022 of the ASX's intention to delist the Company (Refer Note 6).

Subsequent to the end of the financial half-year, the Company drew down \$60,000 on the loan facility with a director-related entity (Note 10).

To the best of the directors' knowledge and belief, there were no other material items, transactions or events subsequent to the end of the financial half-year which, although they do not relate to conditions existing at that date, have not been dealt with in these financial statements and which would cause reliance on the information shown in this report to be misleading.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the interim financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
